

SEPTIC VA66 2500 1CPT

Tank Features & Architecture

- 2,500-gallon high-capacity waste compartment engineered with a progressive front-to-back slope for rapid, complete drainage
- Premium ASME-certified dish and flange structural heads for superior pressure vessel durability
- 4" load line mounted on the rear head equipped with an industrial manual lever valve and an internal stainless steel fluid splash deflector
- 6" high-flow outlet located at the bottom rear head featuring a heavy-duty lever valve
- Premium aluminum utility storage cabinet (36"L x 24"H x 24"D) complete with a secure locking latch
- Full-length aluminum hose troughs running down both sides of the tank structure
- Hose hangers mounted securely to the rear head assembly
- Dual 20" high-clearance manways positioned on the rear head and the top of the tank for simple maintenance access

- 5" heavy-duty sight glasses for structural waste level tracking

Pump Package

- NVE, MASPORT, or high-capacity Hi-Vac Blower packages | System includes secondary shutoff, final filter, heavy-duty gear box, diesel flush kit, and custom mounting bracket
- Heavy-duty "Hot Shift" style Power Take-Off (PTO) drive infrastructure

Accessories & Utilities

- High-output LED swivel work lights (front and rear) paired with independent exterior switches housed in a weatherproof enclosure
- LED clearance and tail lighting packages
- 3" x 30' heavy-duty tiger tail suction hose complete with a durable poly suction stinger
- Carbon steel structural bolt-on rear bumper

Available Options

- High-pressure jetter washdown systems
- Precision mechanical float gauges
- Custom-split additional fresh water compartments engineered to your route specs

Truck Chassis Compatibility

- Commercial chassis availability: Freightliner, Kenworth, and International options engineered to order
